

## Mount Kit for Echo Dot 3<sup>rd</sup> Generation (Alexa)

Our innovative solution provides all you need to install your Amazon Echo Dot 3<sup>rd</sup> Gen into the ceiling or wall of any room and extend Alexa's audio output into your own speakers. A single Cat cable carries both the power for the Echo Dot and its audio signal back to your equipment over a distance up to 200 feet. We are certain you will find this feature not only incredibly useful and convenient but also fun!

### What's Included:

Ceiling / Wall Mount bracket that securely holds the Amazon Echo Dot 3<sup>rd</sup> Gen.

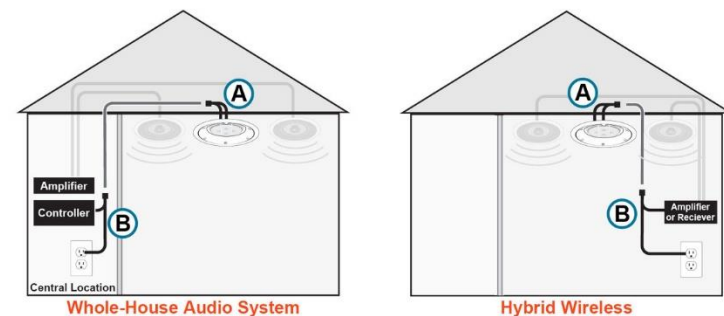

Two grille cover options: one that reveals a modest trim similar to canned lighting; one "trimless" design that covers the entire mount.

UL listed power supply, POE (power-over-ethernet) injector, and custom power/audio splitter with barrel-type 12V connector

3.5mm stereo connector plugs into the Echo Dot; stereo RCA connectors plug into your audio equipment

### Best Uses:

#### BEST USES

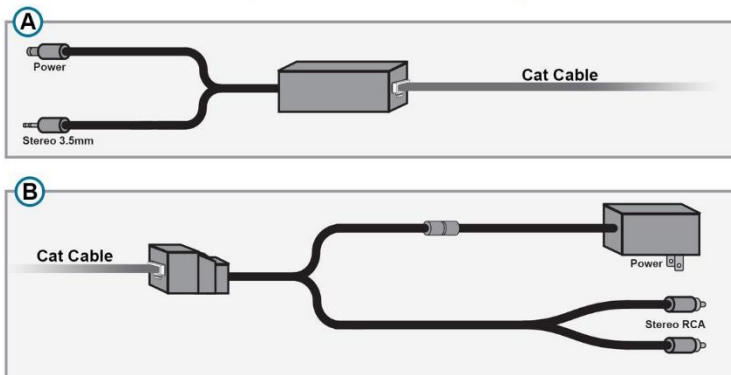

#### Connect to a Whole House Audio System.

The Echo Dot 3<sup>rd</sup> Gen becomes a source that you can control by voice (and within the Alexa app) and easily make available to other zones in the home.

#### Use Multiple Kits to Build a Hybrid Wireless Whole-House Audio System.

Create individual zones and then pair the Echo devices together to have multiple zones listen to the same source.

#### Connect to Any Amplifier with ADS™ (Auto Detect and Switch).

When connected to the primary or Voice Assistant input, the audio from the Echo device is heard whenever you need it, even if you were already listening to a different source.

## How to Install:

We're here to help! If you have any questions or would like to discuss your home audio needs in general, we are available toll free: 866-HTD-AUDIO (866-483-2834) and local: 972-312-9900, M-F 8am-6pm Central.
